

New Wound Care Software Release

TriAssess[®] Software, Premier Version 5.0

Spell Check

- *NEW* – Real-time spell-check.
- *PLUS* – English medical dictionary.

Patient Education

- *NEW* – Patients can now take home printed education materials for all categories of dressings, drugs and devices.
- *UPDATED* – Patient education updated to reflect The Joint Commission current standards.

Enhancements

- Diagnosis coding lists on Procedures and Ancillary Services Orders screen for quick and accurate ICD-9 selection.
- Wound tracking graph for all visits incorporated into real-time documentation.
- Improved access to print acknowledgement and care progress letters for referring physicians.

Customizable

- Easily add and modify drop-down select values to customize and fit *your* documentation needs.

ICD-9/CPT/HCPCS Codes

- *NEW* – Built in E-codes for more specific diagnosis coding as requested by specific Fiscal Intermediaries.
- *UPDATED* – ICD-9/CPT/HCPCS Codes for 2007.

Faster

- *NEW* – Data entry shortcuts to quickly add order information for any supplies used during the patient visit.
- *NEW* – “Quick-pick” feature for collection of patient history.
- *PLUS* – Rapidly insert frequently used documentation and previous documentation based on prior care.

Intelligent

- *ADVANCED* – Auto Alert suggestions improves comprehensive documentation automatically. Refutable documentation exposed, in real time, with immediate visual notification.

Compliant

- *NEW & ADVANCED* security features continuing to meet HIPAA standards
